### Item SL550

The compact Micro 3.0 makes it easier than ever to capture stunning underwater photos and video. Since the camera is sealed, there are no O-rings to maintain and no possible leaks to worry about. The Easy Setup mode ensures the camera is set properly. The three wide "Piano Keys" and a large shutter button make it easy to control all camera functions so you can capture high resolution 16mp still images or record 4K Ultra-HD video with a single touch. The Micro 3.0 has three color correcting underwater scene modes plus Manual white balance to fine tune colors in all conditions.

The Micro 3.0 advanced features include the ability to shoot RAW images with virtually no shutter lag and rapid-fire burst mode at 10 frames per second for fast moving subjects. The high-capacity battery lasts three hours or more on a single charge. Use the Micro 3+ app to download photos and videos to your smartphone or tablet. Expandable with popular Sea Dragon photo-video lights and close-up lenses for macro photography.

Includes: SportDiver Housing, Sea Dragon 2500F light, Flex-Connect Single Tray, Flex-Connect Grip.

**Add stunning colors  
with the  
Sea Dragon  
Underwater  
Universal Flash**

## Sea Dragon Universal Flash Item SL963

Universally compatible with SeaLife and most other cameras using an internal flash, the Sea Dragon Flash features variable power adjustment and large controls to easily fine tune brightness and an Auto Mode that automatically adjusts brightness for optimal exposure. Compatible with SeaLife and other underwater cameras with an internal flash and 1/4"-20 tripod mount. An Ikelite® tray adapter is also available (SL997).

Includes diffuser, single tray, grip, optical cable, 7mm cable plug, and universal flash mask, and case. Flash takes 4 AA batteries (not included). Flash head only: SL9631

## SEA DRAGON® Underwater Lighting

### Sea Dragon 2000F Photo/Video Light Item SL677

The Sea Dragon 2000F uses COB LED technology to create a favorable color rendering that simulates natural sunlight with a color temperature of 5000k and a generous beam angle. This is a perfect combination for compact digital cameras. The 120° beam is ideal for cameras with a wide field of view. Depth rated down to 330 feet/100 meters. 60 minute run time at full power.

Includes micro tray, grip, 25Wh Li-Ion battery and charger. Also available as light head only (Item SL6770).

### Sea Dragon 2500F Photo/Video Light Item SL671

The Sea Dragon 2500F uses flat panel COB LED technology, bringing out amazing colors in underwater photos and videos. With a Color Rendering Index of 90 (100 CRI is like natural sunlight), the Sea Dragon 2500 solves the issue of muted colors in underwater photos and videos. The wide 120° beam ensures maximum lighting coverage and is ideal for cameras with a wide shooting angle like the SeaLife Micro-series or RM-4K cameras. 60 minute run time at full power.

Includes single tray, grip, 25Wh Li-Ion battery, charger and case. Also available as light head only (Item SL6712).

*Note: The beam angles for the Sea Dragon lights are shown as the true, tested "in-air" (above water) beam angle. Due to light refraction, the angle tightens to approximately 33% less in water. E.g. A topside or in-air beam angle of 120° will be 90° underwater.*

**Illuminate  
darkness with  
vibrant colors  
when you add the  
Sea Dragon**

## Sea Dragon 3000F Auto Photo/Video Light

**Item SL678**

The Sea Dragon 3000F Auto delivers 3000 lumens over 120° smooth, even beam angle without a hot spot. Two red LED's emit 180 lumens, 88° wide beams "stealth mode" that won't scare away nighttime sea creatures and preserves your eye's natural night vision. Powered by a rechargeable 25Wh lithium ion battery, the light runs for a full hour at 100% power at constant brightness with its new COB LED 120° beam angle. Depth rated to 330ft / 100m. The Sea Dragon 3000F Auto also has SeaLife's Auto Flash Detect Mode and Auto Bright Mode.

Includes Flex-Connect single tray, grip, 25Wh Li-Ion battery, charger and case. Also available as light head only (Item SL6780).

**Bring out bright,  
brilliant colors  
with the  
Sea Dragon 5000+**

**NEW**

## Sea Dragon 5000+

**Item SL680**

The compact Sea Dragon 5000+ with Color Boost™ Photo-Video light is a powerful photo-video, dive light that replenishes lost colors underwater by combining red and white light frequencies for a balanced, warm effect. With a simple one-button push, you can switch from a brilliant 5000 lumen beam to the Color Boost feature, adding warmth by using the light's proprietary red LED's to a warm color temperature of 3700 Kelvin.

Brightness output can also be adjusted to 6000 lumen, and 6000 lumens with Color Boost (4000K Color temp.), 3000 lumen, 1500 lumen, and Red-only "Stealth" mode, while the two red LEDs alone are perfect for night dives.

## Sea Dragon Pro Dual Beam Photo/Video Light

**Item SL679**

The compact Sea Dragon 3000SF Pro Dual Beam Photo-Video light has a large COB LED, delivering 3000 lumens in an even 120° wide beam. The light offers an impressive 90 CRI (color rendering index) with a proprietary COB LED array that replicates natural sunlight (A CRI of 100 would be just like natural sunlight). With a simple one-button push, the underwater photographer can switch from the wide 120° beam to a narrow 1500 lumen 15° spot beam. For imaging, the spot beam offers many creative opportunities such as to create a narrowly focused snoot or stage spotlight effect.

Includes Flex-Connect single tray, grip, 25Wh Li-Ion battery, charger and case. Also available as light head only (Item SL6791).
